
Deus Ex Revision Cheats ((EXCLUSIVE))

These cheats were made for Deus Ex Mankind Divided v1.12 build 667.0. This cheat table currently contains the following cheats: [] God Mode - Infinite health and infinite energy. My first infinite energy cheat seemed to bug out the NPCs so that take downs and stun guns didn't work on them very well but that seems to have been fixed when I redid it with my health cheat. The only known bug is that when the infinite energy bit does its thing, the recharge line thing seems to instantly be brought down a good bit. That shouldn't be a problem though as the cheat still works fine. [] 5k Credits On Pickup - Every time you pick up credits you will receive the normal amount of credits + 5k extra. The amount added can easily be changed to more or less by editing (int)5000 in the line: Once this configuration change has been made, you need to start the game up. At this point if you're using the command line parameter -hax0r you will need to add this to your shortcut. If not, then use one of the in game method of enabling cheats by pressing T while in game and typing set DeusEx.JCDentonMale bCheatsEnabled True. To enter a Deus Ex Revision cheat, make a backup copy of a game file, make some edits to user.ini then run the game. To enable cheats, make a backup copy of the game file. Once this is done, open user.ini in a text editor. It can be found in the deusex/system directory. Now assign the T key (upper and lower case) to talk. Change all entries for the T key in the file, then save it and exit. Launch the game. During gameplay, press T and the computer will display the prompt Say. Delete this and enter instead set DeusEx.JCDentonMale bCheatsEnabled True to enable cheat mode. Then to enter a cheat, press T again and type away.

hacking isnt the only way to crack open security in deus ex: mankind divided you can also input codes or passwords to get where you dont belong. skip all that annoying hacking and just open those locked safes, doors, and security panels with ease using

our huge list of all the codes or passwords we've discovered so far. visit site i've been using the packager tool to get deus ex: hr to work with ums (ue4) and i've now found that the ums installer doesn't recognize the file packager.exe. so, i created a patch for this file and that works for me, but it does not

work for the others.
can somebody please
help me with this?
thanks! (i've been
using it to package
many different games).
