Thank you for your help. I need some kind of software that could work on Windows 7/8 and Windows 10 (RTM). I'm not familiar with the Windows platform, and I have a really limited technical level, but I saw on someone's profile: Recuva Crack. It's available to download here: I've had it for a year or so and it's great, so I want to use it. I've tried everything to recover my files, but I really don't know what to do because everything's green, the "delete" option is greyed out and most of the files I've tried have been deleted. I've run a full scan in case it was corrupted before I downloaded Recuva, but it found nothing, so I tried the "Recover Deleted Files" function. It said the file was deleted, but it's nowhere to be found. I tried to download Recuva's free version, but it said I need a registration/license key. I tried to download it without registration, but Windows says it's already installed. I want to get my files back, so I'd appreciate your help. I'm using Windows 10 Pro 64bit, on a PC. I'm not sure about the hard drive's brand, but I know it's NTFS. Thank you for helping me. Greetings! From here: you can download a crack for JpgRecoverPro-Files.rar file and unrar it to you computer to unlock the product. After that you can install it to enjoy its full functionalities. Culminating the season in style, ESL has announced the action, prizes and format for the last event of 2016, the \$100,000 FaceIT League Season 2 Finals. Featuring \$60,000 total prize money, the final event of 2016 will be held in Cologne, Germany from the 6th of December to the 8th of December. The action will kick off with a double-elimination group stage of six teams on the 6th of December followed by a single-elimination bracket on the 8th of December. The top four teams from the group stage will proceed to the playoffs, while the bottom two will face-off in a best-of-one semi-finals
